

## ***MEMORANDUM***

**TO:** Board of Directors **DATE:** February 8, 2012

**FROM:** Celia McAdam, Executive Director

**SUBJECT:** FY 2011/12 OVERALL WORK PROGRAM (OWP) AND BUDGET – AMENDMENT #2

### **ACTION REQUESTED**

Adopt the attached FY 2011/12 Overall Work Program (OWP) and Budget – Amendment #2 and authorize the Executive Director to submit it to Caltrans.

### **BACKGROUND**

The OWP should provide a description of the activities to be undertaken by the agency in the coming year, along with detailed budget information. Aside from being prudent administrative practice, the adoption of an OWP and Budget each year is also a state requirement for all Regional Transportation Planning Agencies (RTPAs).

It is expected that, as each fiscal year progresses, situations and priorities will change, and work activities and budgets must be updated correspondingly. For that reason, amendments to the OWP and Budget are normally expected during the fiscal year. The Board approved the Final FY 2011/12 OWP and Budget at your May 2011 meeting and Amendment #1 at your October 2011 meeting.

### **DISCUSSION**

The Overall Work Program delineates the latest information on the efforts the Board has directed staff to undertake in FY 2011/12. The accompanying budget covers those activities as specified, and reflects the Agency's current financial status.

There have been a few refinements to the FY 2011/12 OWP and Budget since adopted earlier this year. A summary of the more significant changes are noted below:

#### ***Budget***

The budget for FY 2011/12 remains balanced. The majority of the changes to the budget were the result of reconfiguration of staff activities and indirect cost reimbursements resulting in a 10% reduction in the overall budget level.

There has been ongoing reclassification of a portion of staff time from direct to indirect expenses to conform to the reporting requirements for an updated Indirect Cost Allocation Plan (ICAP). The ICAP, which must be approved by Caltrans Audits division, will allow us to more effectively recoup these overhead costs. This includes a \$50,000 reduction of Rural Planning Assistance (RPA) reimbursement shown in our carryover funds which will be recouped in FY 2012/13.

**Page 2**

Stan Tidman's plans as a retired annuitant have changed, resulting in a delay for the start of the Airport Land Use Compatibility Plan update until a replacement for the position is hired in FY 2012/13. In addition, expenditures for the I-80/SR 65 Interchange Improvements are less than expected for the current FY, with a resulting budget reduction.

Other budgetary adjustments include carryover of funding and projects, and adjustments in indirect spending.

***Work Program***

Most notable changes to the work program include:

- Airport Land Use Compatibility Plan Update (WE 27) will be delayed until FY 2012/13.
- Agency Administration (WE 10) has been further subdivided to account for Indirect Labor (WE 10a) to recoup a portion of administrative costs to be reimbursed by Federal grants.
- The Transit Schedule Coordination (Work Element 76) effort will provide a partial carryover of funding to allow printing of updated schedule in FY 2012/13.

***Staffing***

The overall staffing plan sees a reduction to 6.46 full time equivalent (FTE) employees. It is expected that staff will return to approximately 6.8 FTE in FY 2012/13.

# OVERALL WORK PROGRAM FOR 2011/12

## OVERVIEW

The FY 2011/12 Overall Work Program (OWP) documents the management, budgetary, and monitoring activities performed annually by the Placer County Transportation Planning Agency (PCTPA). It is developed annually for Caltrans review and for approval by the PCTPA Board of Directors. This version of the OWP is the result of input from jurisdiction management, public works and planning officials, air district management, tribal governments, elected officials, and the general public. This document also provides an application format for Caltrans-administered funding programs, such as FHWA Partnership Planning funds and FTA Transit Planning grants.

Twenty-one work elements are proposed that include specific objectives, budgets, and products. Several of these work elements are funded by a mixture of State, federal and local programs. The remaining are funded solely by TDA funds. This work program has a number of important characteristics:

1. The work program is action oriented. Its primary objective is to implement a programming and funding strategy that will address the mobility needs of Placer County residents, businesses, and visitors. Of key overall importance is the Regional Transportation Plan, which serves as a guiding force for transportation improvements over the next 20 years, and its integration with SACOG's Metropolitan Transportation Plan (MTP). Also included here are strategies and studies to address major transportation issues or hot spots including: (1) Regional Transportation Plan; (2) Placer Parkway; (3) I-80/SR 65 Interchange Improvements.
2. The work program reflects a pro-active approach to identifying future transportation project needs (e.g., TDA Administration, Capitol Corridor Rail service, Regional Transportation Plan);
3. The work program provides a greater emphasis on implementation of previously identified needs, including administration of the South Placer Regional Transportation Authority, project management and delivery, the update of the Comprehensive Land Use Compatibility Plan for Placer's airports, and leading the preconstruction of the I-80/SR 65 Interchange Improvements;
4. The work program includes a comprehensive effort to assist member jurisdictions in maintaining the high level of compliance with "use it or lose it" timely use of funds requirements;
5. The work program reflects a multimodal approach. Effort has been divided between planning for transit, highways, rail, alternative transportation, aviation, ITS, and bikeways;

6. The work program reflects the strong commitment to partnerships with other regional agencies in approaching interregional transportation needs.
7. The work program reflects the more pronounced need to participate in regional, State, and federal discussions regarding planning and funding transportation projects;
8. The work program will assure that PCTPA meets all State and federal planning requirements;
9. The work program funding allocation system meets TDA requirements.

The 2011/12 OWP is a product of cooperative efforts by PCTPA's member jurisdictions, including the Cities of Auburn, Colfax, Lincoln, Loomis, Rocklin, and Roseville, the Town of Loomis, and Placer County, as well as other interested agencies. Equally important, the OWP is consistent with State and federal funding priorities.

## **INTRODUCTION**

The mission of the Placer County Transportation Planning Agency (PCTPA) is derived from its numerous state and local designations. The agency has been designated in state law as the Regional Transportation Planning Agency (RTPA) for Placer County. PCTPA is also the county's Congestion Management Agency (CMA), a statutorily designated member of the Capitol Corridor Joint Powers Authority (CCJPA), and the airport land use planning body and hearing board for Lincoln, Auburn, and Blue Canyon Airports. As part of their Joint Powers Agreement, PCTPA is the designated administrator for the South Placer Regional Transportation Authority. Under an agreement with the Sacramento Area Council of Governments (SACOG), PCTPA also represents Placer jurisdictions in federal planning and programming issues. Since the PCTPA has a local Agency-State Agreement for federal aid projects, it is also eligible to administer federal projects.

**Regional Transportation Planning Agency:** PCTPA was created by Title 7.91 of the government code commencing with Section 67910 as the transportation planning agency for Placer County excluding Lake Tahoe. PCTPA has also been designated as the Regional Transportation Planning Agency (RTPA) for Placer County excluding Lake Tahoe in Section 29532.1(c) of the Government Code. Previous to this designation, PCTPA operated under the name of the Placer County Transportation Commission (PCTC) and operated as a local county transportation commission as specified under Section 29532(c) of the Government Code.

PCTPA has executed a memorandum of understanding and Master Fund Transfer Agreement with the State Department of Transportation on January 26, 1996 identifying the responsibilities of PCTPA as the RTPA and providing the administrative structure to implement these responsibilities.

As an RTPA with an urbanized population of over 50,000, PCTPA is responsible for preparing a Regional Transportation Plan (RTP) and Regional Transportation Improvement Plan (RTIP) pursuant to Section 65080 of the Government Code.

**Local Transportation Fund Administration:** As the transportation planning agency, PCTPA allocates the Local Transportation Fund (LTF) to Placer County public transportation agencies pursuant to Section 29532 of the Government Code. The administration of these funds includes the establishment of a Social Service Transportation Advisory Council, the implementation of a citizen participation process appropriate for Placer County, annual recommendations for productivity improvements for transit operators, the performance of an annual fiscal audit of all LTF claimants, the implementation of a triennial performance audit of all LTF claimants, and the preparation of an annual unmet transit needs determination.

PCTPA receives an allocation of LTF funds for the administration of the LTF fund pursuant to Section 99233.1 of the Public Utilities Code and for transportation planning pursuant to Section 99233.2 of the Public Utilities Code and Section 6646 of the Government Code.

It is the responsibility of PCTPA to establish rules and regulations to provide for administration and allocation of the LTF and State Transit Assistance (STA) Funds in accordance with applicable sections of the Government Code, Public Utilities Code and Administrative Code included within the Transportation Development Act. It is also the responsibility of PCTPA to adhere to the applicable rules and regulations promulgated by the Secretary of the Business, Transportation and Housing Agency of the State of California as addressed in the Transportation Development Act, Title 3, Division 3, Chapter 2, Article II, Section 29535.

Under SB 45, signed by Governor Wilson in October 1997, Regional Transportation Planning Agencies (RTPAs) such as PCTPA are responsible for selection of projects, known as the Regional Transportation Improvement Program (RTIP), to be funded with the county's share of STIP funds. This power also comes with the responsibility of ensuring that the projects are on schedule and within budgetary constraints.

**Federal Transportation Planning and Programming:** PCTPA has executed memoranda of understanding (MOUs) with Caltrans and the Sacramento Council of Governments (SACOG) on April 11, 2001 and February 23, 2005 to govern federal transportation planning and programming in Placer County. This agreement integrates the PCTPA Regional Transportation Plan (RTP) and RTIP within the SACOG process.

Pursuant to these agreements, PCTPA receives a "fair share" allocation of both federal urbanized Surface Transportation Program (STP) funds and Congestion Air Quality Mitigation Improvement Program funds (CMAQ). PCTPA nominates projects for these funds, and SACOG has agreed to select these nominated projects unless they fail to meet a federal requirement. SACOG cannot add projects to the PCTPA nominations.

PCTPA submits the state mandated RTP, developed pursuant to Section 65080.5 of the Government Code, to SACOG for inclusion in the federal Metropolitan Transportation Plan. As part of this agreement, SACOG conducts a federal air quality conformity test on the Placer County transportation program and plan.

PCTPA receives an allocation of federal STP funds for Placer County. Pursuant to Section 182.6 of the Streets and Highways Code, PCTPA can exchange the non-urbanized funds for State gas tax funds. PCTPA allocates these exchange funds to jurisdiction projects based upon an MOU signed by all Placer jurisdictions dated November 2, 1994. The STP funding exchange formula and allocation was updated to reflect TEA 21, approved by the PCTPA Board on January 27, 1999, and is updated annually as appropriate.

**Administration of Federal Aid Projects:** PCTPA executed a Local Agency - State Agreement for Federal Aid Projects (Agreement 03-6158) with the State of California on March 2, 1994 and reauthorized on January 28, 2004. The execution of this agreement qualifies PCTPA to administer federally funded projects.

**Passenger Rail Administration:** Pursuant to Section 14076.2(b) of the Government Code, PCTPA is statutorily designated as a member of the Capitol Corridor Joint Powers Authority (CCJPA). Through an interagency agreement with Caltrans, the CCJPA administers the intercity rail service on the San Jose-Colfax railroad corridor.

**Airport Land Use Commission:** PCTPA was designated the Airport Land Use Commission (ALUC) for Placer County by the Board of Supervisors (December 17, 1996) and the Placer County City Selection Committee (October 24, 1996) pursuant to Section 21670.1(a)(b) of the Public Utilities Code. PCTPA acts as the hearing body for land use planning for Placer County airports. PCTPA is also responsible for the development of airport land use plans for Placer County airports as specified in Section 21674.7 of the Public Utilities Code.

Placer County, Auburn, and Lincoln each collect a fee on development projects by local ordinance in the area governed by the airport land use plan. This fee is passed on to PCTPA to help defray the cost of project review.

**South Placer Regional Transportation Authority (SPRTA) Administration:** PCTPA was designated as the administrator of the SPRTA under the terms of the Authority's Joint Powers Agreement dated January 22, 2002. As such, PCTPA provides staffing and management of the Authority, and is reimbursed for these services under a staffing agreement.

**Transportation Sales Tax Authority.** PCTPA was designated as the transportation sales tax authority for Placer County by the Placer County Board of Supervisors on August 22, 2006. In the event that a transportation sales tax is passed by a 2/3 majority of Placer's voters, PCTPA would be designated as the entity to administer the sales tax expenditure plan.

## **Western Placer Consolidated Transportation Services Agency (WP CTSA)**

**Administration:** PCTPA was designated as the administrator of the WPCTSA under the terms of the Agency's Joint Powers Agreement dated October 13, 2008. As such, PCTPA provides staffing and management of the Agency, and is reimbursed for these services under a staffing agreement.

## **PCTPA ORGANIZATION**

The nine member PCTPA consists of three members appointed by the Placer County Board of Supervisors and one member each from the incorporated cities of Auburn, Colfax, Lincoln, Loomis, Rocklin and Roseville.

PCTPA has provided for seven full-time staff members to implement the FY 2011/12 OWP. The organization of PCTPA is summarized in Figure 1.

The PCTPA reorganized its staffing structure and became a separate and independent agency on May 1, 1992. Previous to this reorganization, PCTPA was staffed by the Placer County Public Works Department.

## **GEOGRAPHIC LOCATION**

PCTPA's jurisdiction includes a portion of northern California between the Sacramento Metropolitan area and the Nevada State line, as shown in Figure 2. In total, Placer County contains 1,506 square miles ranging in elevation from 160 feet to nearly 9,500 feet.

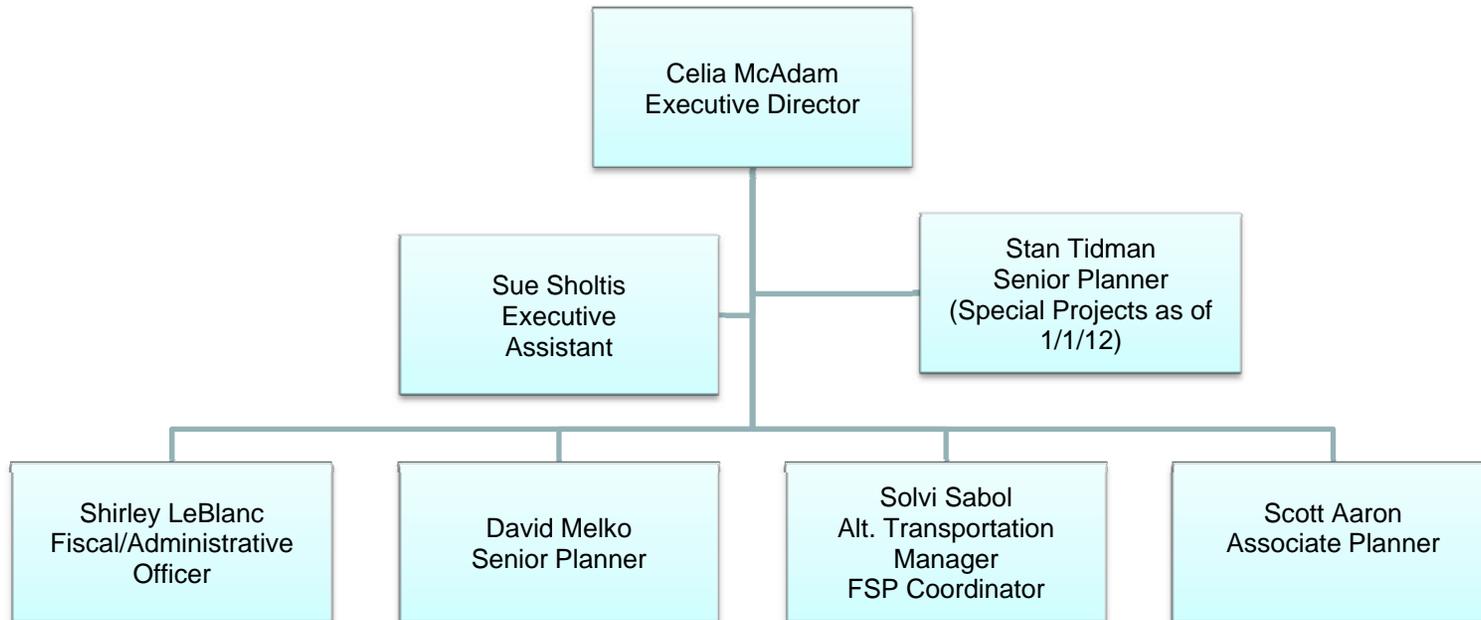

PCTPA represents the County and six incorporated cities located within the political boundary of Placer County. Transportation planning services are provided to the following incorporated cities with their corresponding January 1, 2011 populations: Auburn ( 13,410), Colfax ( 1,971), Lincoln ( 43,248), Loomis ( 6,475), Rocklin ( 57,901) and Roseville ( 120,593). Unincorporated Placer County has a population of 98,245. These population estimates are based upon information provided by the California Department of Finance in their 2011 DOF E-4 Report.

## **AGENCY COORDINATION**

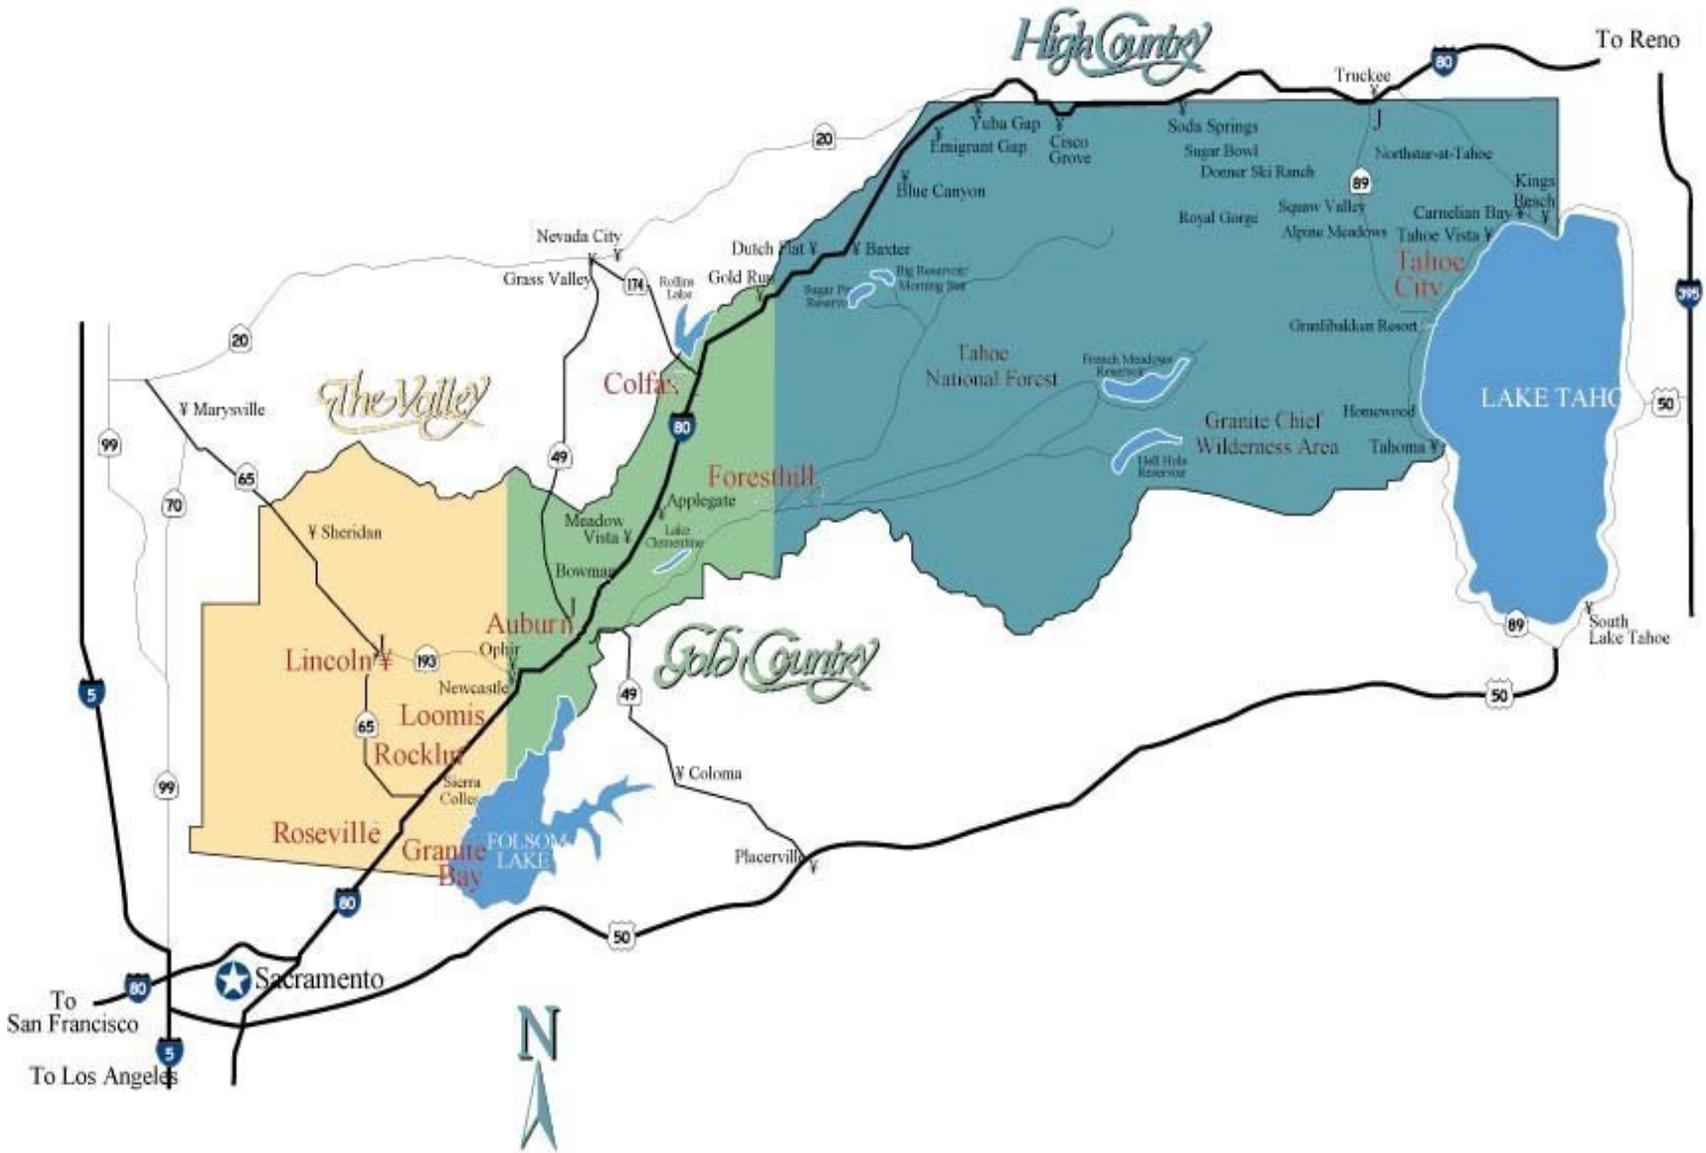

PCTPA coordinates regional transportation planning activities with other public agencies including the Sacramento Area Council of Governments (SACOG), the Tahoe Regional Planning Agency (TRPA), the State Department of Transportation (Caltrans), the California Transportation Commission (CTC), adjacent RTPAs (Nevada County Transportation Commission, El Dorado County Transportation Commission), the United Auburn Indian Community of the Auburn Rancheria, and other interested groups.

## COMMUNITY PARTICIPATION

In an ongoing effort to encourage participation of all communities in the transportation planning process, and in compliance with Title VI, the PCTPA solicits input through various policy, technical, and public forums. Outreach to the United Auburn Indian Community is specifically included.

PCTPA conducts public hearings regarding the development and adoption of the Regional Transportation Plan, the Regional Transportation Improvement Program, and the annual unmet needs hearing. Additional public hearings and workshops are held for individual work projects as indicated. The community information and participation effort has been enhanced by expansion of the agency web page on the Internet, to provide citizens with greater access to agency documents and activities, establishment of a speaker's bureau, and greater emphasis on working with local media outlets. See Work Element 14: Communications and Outreach and individual project work elements for further details.

## **WORK ELEMENT 12 INTERGOVERNMENTAL COORDINATION**

**PURPOSE:** To coordinate with outside agencies and jurisdictions on matters pertinent to transportation planning, programming, and funding.

**BACKGROUND:** PCTPA is in a somewhat unusual position, representing the transportation interests from a blend of urban and rural perspectives. As such, staff represents the PCTPA in a number of forums and committees, including the Regional Transportation Planning Agency Group, Rural Counties Task Force, Self-Help Counties Coalition, Regional-Caltrans Coordinating Group, California Transportation Commission, California Association of Councils of Government, and others. This participation is important not only to keep staff and jurisdictions updated on federal and State regional transportation programs, but to also represent the interests of local jurisdictions in federal, State, and regional policy and funding decisions. The commitment to intergovernmental communication and coordination is critical to the ongoing mission of PCTPA, as illustrated by the significant time commitments by staff and use of federal and state advocates in representing agency interests in legislation and funding efforts.

PCTPA also works very closely and continuously with the Sacramento Area Council of Governments (SACOG), as the Metropolitan Transportation Organization (MPO) for our area, to implement federal and State transportation programs. While many of our interactions are specified under our Memorandum of Understanding, regional interests and overlapping jurisdictions provide additional need for close coordination. In addition, PCTPA works in close coordination with the Placer County Air Pollution Control District (APCD) in regards to transportation/air quality issues.

## **WORK ELEMENT 14 COMMUNICATIONS & OUTREACH**

**PURPOSE:** To inform the public of the Agency's activities and gather effective public input

**BACKGROUND:** As the transportation system in California and in Placer County faces more and greater challenges, it is even more critical that the public be aware and informed about transportation issues, the role of PCTPA, and the activities we are doing now and planning for the future. This awareness translates to a higher level of public discussion and informed approaches to dealing with transportation issues.

## **WORK ELEMENT 20**

### **REGIONAL TRANSPORTATION PLAN (RTP)**

**PURPOSE:** To update the Placer County Regional Transportation Plan and coordinate with SACOG on the development of the Metropolitan Transportation Program (MTP).

**BACKGROUND:** The current Placer County Regional Transportation Plan (RTP) 2035 was adopted by the Board in September 2010. It provides the long-range, comprehensive direction for transportation improvements within Placer County. The RTP includes regional transportation goals, objectives, and policies that guide the development of a balanced, multi-modal transportation system. The RTP also includes a financial analysis that forecasts transportation funding available over the twenty-two year horizon of the plan. Under the requirements of the Federal transportation act SAFETEA-LU, this latest RTP is SAFETEA-LU compliant.

PCTPA is actively participating with SACOG and our other regional partners in the update of the six-county Metropolitan Transportation Plan (MTP), which kicked off in 2010. Technical reasons for this joint effort include reference to the PCTPA/SACOG Memorandum of Understanding (MOU) dated April 11, 2001, which states SACOG provides air quality conformity and other federal requirements for the RTP.

More importantly, the collaborative approach provided by the coalition of transportation partners throughout the six-county region means improved interregional coordination, as well as ensuring that Placer projects and priorities are integrated into a cohesive regional plan as provided in the MOU. PCTPA uses its Rural Planning Assistance (RPA) to help fund the provision of these services by SACOG.

As part of the MTP update effort, PCTPA will continue to work closely with SACOG to reflect updates to land use, traffic patterns, and transportation priorities. It is expected that emissions targets and other data needed to fulfill the new requirements coming out of SB 375 will be available, and staff will be working closely with SACOG to reflect consensus on these issues as part of a Sustainable Communities Strategy that incorporates the PCTPA jurisdiction.

#### **WORK PROGRAM:**

- Work with SACOG to ensure adopted RTP 2035 projects and policies are incorporated in SACOG's MTP 2035 documents. **July 2011 – June 2012**

**WORK ELEMENT 23  
WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES  
AGENCY (CTSA) ADMINISTRATION**

**PURPOSE:** To provide staffing and administrative support for the Western Placer Consolidated Transportation Services Agency (CTSA) Joint Powers Authority (JPA).

**BACKGROUND:** The Consolidated Transportation Service Agency (CTSA) designation was created by California law as a means of strengthening and coordinating the social service transportation programs of nonprofit organizations and, where appropriate, to serve as the focus for consolidation of functional elements of these programs, including the provision of transportation services. For Placer County, the CTSA designation was held by Pride Industries from 1997 until they resigned effective December 31, 2007.

When no other suitable candidate was found to undertake the role, the seven jurisdictions of Placer County formed a Joint Powers Authority to take on the role of the CTSA. The result was the Western Placer CTSA JPA, which was created on October 13, 2008 by Placer County and the cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, and the Town of Loomis to provide CTSA services. Under the terms of the JPA, PCTPA provides administrative services for the JPA.

### **AIRPORT LAND USE COMMISSION**

**PURPOSE:** To administer the Placer County Airport Land Use Commission (ALUC) and related aviation activities.

**BACKGROUND:** PCTPA's aviation planning activities include administration of the Airport Land Use Commission (ALUC), and providing technical assistance. Placer County has two public-use airports at Auburn and Lincoln, and an emergency airstrip at Blue Canyon.

PCTPA coordinates with the California Department of Transportation, Division of Aeronautics for ALUC planning activities and funding. As the designated Airport Land Use Commission (ALUC) for Placer County, PCTPA is responsible for defining planning boundaries and setting standards for compatible land uses surrounding airports. ALUCs have two primary functions under State law. The first is the adoption of land use standards that minimize the public's exposure to safety hazards and excessive levels of noise. The second is to prevent the encroachment of incompatible land uses around public-use airports.

While the Truckee- Tahoe Airport is predominantly in Nevada County, part of the runways and overflight zones are in Placer County. Under agreement reached in 2010, the ALUC designation for the Truckee-Tahoe Airport lies with the Nevada County Transportation Commission (NCTC), augmented by a representative appointed by the Placer County Board of Supervisors so that Placer interests are represented appropriately.

The ALUC is required to prepare an Airport Land Use Compatibility Plan (ALUCP) for the area around each public use airport which defines compatible land uses for safety, height and noise. The current ALUCP for Auburn, Lincoln, and Blue Canyon airports was adopted in 2000.

Both the Auburn Municipal Airport and Lincoln Regional Airport have completed Airport Master Plan updates, in 2007 and 2008, respectively. These changes, along with an update to the California Division of Aeronautics State Handbook in 2010, have necessitated an update to the Placer ALUCP for amendments and California Environmental Quality Act (CEQA) reviews. PCTPA has secured a grant from the Caltrans Division of Aeronautics to begin the ALUCP update in this FY 2011/12 work plan.

## **WORK ELEMENT 35**

### **RAIL PROGRAM**

**PURPOSE:** To support and enhance the success of Capitol Corridor rail service in Placer County, to administer the agency's passenger rail, freight rail and rail grade crossing programs, and to maximize the rail funding available to local jurisdictions.

**BACKGROUND:** PCTPA's rail program includes rail system planning, rail program administration and financing, and technical assistance. PCTPA's top rail priority is intercity rail and therefore is an active member of the Capitol Corridor Joint Powers Authority (CCJPA) and its subcommittees. Intercity rail requires extensive work and coordination with Amtrak, Union Pacific, Caltrans and the CCJPA. PCTPA also provides a critical network of support for the service, working with jurisdictions and CCJPA staff to provide stations, platforms, connector buses, and other amenities required for the ongoing success of the service. The State provides operating funds to CCJPA under the provisions of interagency and fund transfer agreements.

The long-standing focus of Placer's rail program is to enhance rail service to Placer County. One manifestation of that priority was the completion of the Regional Rail Conceptual Plan in 2005 with our regional partners at Sacramento Regional Transit, the Yolo County Transportation District, Solano Transportation Authority, and the Contra Costa Transportation Authority. Another manifestation has been to extend passenger service to Reno. A Reno Rail Conceptual Plan was completed in FY 2004/05. Both of these plans have been on hold pending ongoing discussions and negotiations with Union Pacific Railroad about the capacity improvements that would be needed to make partially or completely implement these plans. An underlying recognition with these enhancements to passenger rail is that it would also support and enhance goods movement.

More recently, the rail passenger capacity improvement discussion has focused on improvements to the UP rail "bottleneck" between Sacramento and Roseville. In January 2011, the CCJPA was awarded funding for environmental and design for the Third Track capacity improvements, with the focus of providing the Capitol Corridor 10 round trips daily to Roseville. This effort will entail extensive coordination to build agreements with key parties, including CCJPA, UP, and the City of Roseville.

PCTPA staff represents Placer County's jurisdictions before state, federal and regional rail agencies, as well as the CTC. PCTPA also assists jurisdictions coordinate with Caltrans, Union Pacific and the PUC to improve at-grade crossings.

#### **WORK PROGRAM:**

- Participate in CCJPA and other interagency rail committees and meetings **Monthly**
- Coordinate with state and federal agencies and legislators to ensure and enhance the long term viability of rail service in Placer County **Ongoing**

**WORK ELEMENT 40  
PLACER PARKWAY**

**PURPOSE:** To support the completion of the federal and state environmental document that will provide construction level clearance for a future Placer Parkway – a new roadway linking State Route (SR) 70/99 in Sutter County and SR 65 in Placer County.

**BACKGROUND:** The Placer Parkway is cited in the Placer County General Plan, PCTPA’s Regional Transportation Plan, and the SACOG Metropolitan Transportation Plan. The Placer Parkway would offer an alternative travel corridor for the fast growing areas in western Placer County and southern Sutter County.

The Tier 1 environmental document, which identified a 500’ to 1000’ wide corridor for acquisition, was adopted by the South Placer Regional Transportation Authority (SPRTA) in December 2009. The subsequent Tier 2 environmental document effort is being led by Placer County and will analyze design and construction impacts of roadway alignments within the selected corridor.

PCTPA, both as a planning agency and as staff for SPRTA, has led the development of this project since the Placer Parkway Conceptual Plan was started in 1998. As the project moves into the Tier 2 environmental process, the institutional knowledge and background acquired in efforts to date will be needed to assist County staff in moving the project forward. Staff will also be participating as development efforts begin to take shape in the Western Placer area to ensure that the ongoing viability of the Placer Parkway project and that adopted actions and agreements are incorporated into the planning process.

**WORK PROGRAM:**

- Assist Placer County and other partners in developing and implement a Tier 2 environmental program **Ongoing**
- Participate with Placer County on Project Development Team (PDT) for Placer Parkway **Per County schedule**
- Work with SACOG, Caltrans, and jurisdictions to ensure inclusion of Placer Parkway in their planning efforts **Ongoing**

## WORK ELEMENT 41

### I-80/SR 65 INTERCHANGE IMPROVEMENTS (*Multi-year project*)

**PURPOSE:** To develop a shelf-ready phased improvement program for the I-80/SR 65 Interchange, including environmental clearances, design, and right of way.

**BACKGROUND:** The I-80/SR 65 Interchange was constructed in the mid-1980's as part of the Roseville Bypass project on SR 65 in the Roseville/Rocklin area of South Placer County. The facility is now experiencing operational problems caused by high peak traffic volumes and less efficient geometry of the loop ramp, which cause downstream backups on I-80 and SR 65.

A project initiation document (PID) for the I-80/SR 65 Interchange Improvements was developed in 2009 by Caltrans District 3. This document provided a planning level alignment alternatives, as well as scope, schedule, and cost estimates. Because the two projects are so closely related, PCTPA has reprogrammed a portion of the savings from a Federal earmark for the I-80 Bottleneck for preconstruction of the I-80/SR 65 Interchange. After an extensive consultant selection process including both Request for Qualifications and subsequent Request for Proposal, the contract was signed with CH2M Hill team in February 2011. The overall effort is expected to take approximately three years.

Early efforts include public outreach and data gathering, with extensive coordination with member jurisdictions.

#### WORK PROGRAM:

- Work closely with consultant team, jurisdictions, regulatory agencies, and other pertinent parties to continue implementation of environmental process in accordance with the adopted work program **July 2011 – June 2012**
- With the consultant team, provide information and make presentations on the I-80/SR 65 Interchange Improvement effort to elected officials, business groups, citizen groups, and other interested parties **July 2011 – June 2012/as needed**
- Work with SACOG, Caltrans, and jurisdictions to ensure inclusion of I-80/SR 65 Interchange Improvements in their planning efforts **Ongoing**

### **PROJECT PROGRAMMING**

**PURPOSE:** To maximize the funding available to local jurisdictions through accurate and efficient programming of Federal and State transportation dollars.

**BACKGROUND:** PCTPA develops and programs transportation projects that are funded with State and Federal funds. PCTPA staff coordinates with Caltrans, SACOG, and other agencies, as indicated, regarding the various funding programs. Staff also coordinates with local jurisdictions to develop needed projects to meet specific program guidelines.

The major transportation funding program that PCTPA programs, under the requirements of our designation as Placer's Regional Transportation Planning Agency (RTPA), is the Regional Transportation Improvement Program (RTIP). PCTPA determines how to program the RTIP funds allocated to the county, known as Regional Choice funds. PCTPA also advocates for the allocation of Caltrans' ITIP funds for shared priorities on state highways, including SR 65 and I-80.

State transportation funding has fluctuated wildly in the past several years. Early in the decade, the State raided transportation funds to balance their budget, which resulted in project programming delays for STIP projects. The passage of Propositions 1A and 1B in 2006 spurred a significant cash influx to transportation, but by 2009 was in jeopardy of shutting down because of state budgetary issues. Because Placer advanced funding for the Lincoln Bypass when funds were still flowing back in 2002, we have been able to move forward on construction; however, this advance of Regional Choice funds has meant we have minimal ability to program new projects for many years.

Federal funding is equally volatile. Over the past decade, the shrinking cost effectiveness of the Federal gas tax has required more state funding to make ends meet. Most recently, a Federal stimulus package required quick and intense action to program an influx of Federal dollars to shovel ready transportation projects.

Whatever the financial climate, timelines, or requirements involved, PCTPA's primary focus is to obtain and maintain the maximum amount of transportation funding for our local and regional transportation priorities, including transit improvements, the Lincoln Bypass, SR 65 widening, the I-80/SR 65 Interchange, Placer Parkway, rail capacity improvements, Auburn-Folsom Road, and I-80 improvements east of SR 65. Not only do these projects enhance mobility for residents, they also enhance and expand efficient local, regional, and – in the case of I-80 and rail, national - goods movement.

PCTPA also programs projects for federal SAFETEA-LU programs such as the Congestion Mitigation and Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP), the Federal Transit Administration (FTA) Section 5310, 5311, 5313, 5316, and 5317, the Environmental Enhancements and Mitigation (EEM) program, the Bicycle Lane Account (BLA), and other funding programs.

All regionally significant transportation projects, as well as any which receive federal funding, must be included in the Metropolitan Transportation Improvement Program (MTIP) to allow projects to move

**WORK ELEMENT 50 (continued)**  
**PROJECT PROGRAMMING**

forward. PCTPA works closely with SACOG and our jurisdictions to ensure data included in the MTIP is current and accurate. In addition, SACOG provides air quality conformity determinations on the MTIP to comply with Federal clean air requirements. PCTPA uses its Rural Planning Assistance (RPA) to help fund the provision of these services by SACOG.

Continuous monitoring of all State and Federal programming documents is necessary to ensure that all projects can move smoothly towards implementation. Staff will work with project sponsors, Caltrans, SACOG, or other appropriate agencies to make certain these documents to reflect the most current information and that no funding is lost.

**WORK PROGRAM:**

- Prepare Placer County's Regional Transportation Improvement Program (RTIP) for 2012 **June 2011 – November 2011**
- Monitor and update information on regionally significant projects to SACOG for inclusion in the MTIP **Ongoing**
- Amend Proposition 1B Corridor Mobility Improvement Program (CMIA) agreements **As needed**

## **WORK ELEMENT 55**

### **PROJECT MANAGEMENT AND DELIVERY**

**PURPOSE:** To monitor, manage, and otherwise ensure timely delivery of transportation projects included in Federal and State funding programs.

**BACKGROUND:** As the statutorily designated Regional Transportation Planning Agency (RTPA) for Placer County, PCTPA is responsible for developing and amending the local portion of the State Transportation Improvement Program (STIP), which is known as the Regional Transportation Improvement Program (RTIP). This responsibility under SB 45 also requires RTPAs to monitor those projects included in the STIP for their counties.

Under AB 1012, agencies are also held responsible for ensuring State and Federal funding is spent promptly and projects delivered within specified time limits. This requirement is backed up by “use it or lose it” timely use of funds deadlines. Some of the major projects subject to these provisions are the Regional Surface Transportation Program (RSTP) and Congestion Mitigation and Air Quality (CMAQ) programs. Proposition 1B Corridor Mobility Improvement Account (CMIA) funding carries additional provisions that require funded projects to be under construction no later than 2012. The Lincoln Bypass Phase 1 and two phases of the I-80 Capacity and Operational Improvements in Roseville projects have met that requirement, but constant monitoring and reporting is still required to keep these funds flowing. With the successful effort to obtain CMIA savings for construction of Phase 2a of the Lincoln Bypass, staff efforts focus on negotiating and finalizing Cooperative Agreements and other requirements for the project to begin construction as scheduled in 2012. Over and above these requirements, PCTPA has a long standing commitment to ensuring that every transportation dollar is used as quickly, efficiently, and effectively as is possible. In conjunction with an engineering consultant, PCTPA staff will continuously monitor the progress of projects funded through State and Federal sources and ensure that they meet scope, schedule, and budget.

The major projects included in or planned for current State and Federal programs include:

- Lincoln Bypass Phase 1 and 2
- I-80 Capacity and Operational Improvements in Roseville (the “Bottleneck”), including
  - I-80/SR 65 Interchange Improvements (see Work Element 41)
  - I-80/Eureka Road Interchange Improvements
  - I-80 Auxiliary Lane Improvements
- Improvements to Union Pacific track capacity between Sacramento and Roseville
- Regional Surface Transportation Program (RSTP) funded road rehabilitation projects

In addition to these major projects, there are hundreds of other regional and local projects that require constant monitoring to ensure timely use of funds, air quality conformity, and various other requirements are met.

**WESTERN PLACER FIXED ROUTE SHORT RANGE TRANSIT PLANS**  
*(Continued from FY 2010/11)*

**PURPOSE:** To develop short range transit plans for fixed route transit operators.

**BACKGROUND:** The short range transit plans for all Placer County transit operators were last updated in 2004 to cover to the year 2009. PCTPA will fund a contract to develop short range transit plans for the following fixed route operators – Auburn Transit, Placer County Transit, and Roseville Transit. The documents propose to cover the years 2011/12 to 2014/15.

Placer County continues to experience tremendous growth, and this has been reflected in the demands on local fixed route transit operations. In order to serve this growing population, transit operators must update and revise their operating plans, schedules, and financial plans, as well as coordinating with each other. This need also provides a tremendous opportunity to maximize the coordination of all of the County’s transit systems by performing the short range transit plans concurrently.

A key feature of this study will be a more robust surveying effort, including not only current ridership, but also non-riders, as a way of focusing scarce transit dollars to maximize ridership and efficiency.

**WORK PROGRAM:**

- Award and administer transit consultant contract **Ongoing**
- Work with Transit Operators Working Group (TOWG) and consultant to develop survey documents **FY 2010/11**

**WESTERN PLACER CTSA SHORT RANGE TRANSIT PLAN**  
*(Continued from FY 2010/11)*

**PURPOSE:** To develop a short range transit plan for the newly created Western Placer Consolidated Transportation Services Agency (CTSA).

**BACKGROUND:** The short range transit plans for all Placer County transit operators were last updated in 2004 to cover to the year 2009. The Western Placer CTSA, as a new entity formed in 2008, must do its inaugural short range transit plan.

PCTPA has received an FTA grant to fund a contract to develop a short range transit plan for Western Placer CTSA services. The grant will to cover the years 2011/12 to 2014/15.

Placer County continues to experience tremendous growth, and this has been reflected in the demands on providing specialized transit operations for seniors and persons with disabilities. In order to serve this growing population, the newly created Western Placer CTSA requires a comprehensive operating plan, a capital improvement program, implementation schedules, and a financial plan covering the next five years.

Preparation of the short range transit plan for the Western Placer CTSA also provides a tremendous opportunity to maximize coordination with the County’s fixed route transit systems by performing all short range transit plans concurrently. This short range transit plan, funded by an FTA grant, will be performed in coordination with the short range transit plans of the other Placer transit operators and the Transit Schedule Coordination efforts.

**WORK PROGRAM:**

**TRANSIT SCHEDULE COORDINATION**  
*(Multi-year program)*

**PURPOSE:** To improve coordination of transit schedules amongst the various operators in pursuit of more seamless and intuitive transfer system

**BACKGROUND:** Placer is grappling with the dual challenges of increasing transit demand and decreasing funding available to meet transit needs. In the Long Range Transit Master Plan for South Placer County adopted by the PCTPA Board in 2007, a number of approaches were identified to make transit more efficient through varying types of integration and consolidation amongst the various transit operations, including recommendations for further action.

As one step in pursuing those efficiencies, better coordination of transit schedules will provide a more seamless transfer system designed to attract more ridership without increasing costs. These efforts will be coordinated subsequent to the Unmet Transit Needs process (WE 11) to ensure that the latest and best rider need information is included. The coordination of transit schedules was a consideration in the development of the various transit agencies' Short Range Transit Plans (WE 74 and 75). While some early effort on the transit schedule coordination occurred in FY 2010/11, it was determined that the majority of this work element should be undertaken once the Short Range Transit Plans were completed in September and October 2011.

**WORK PROGRAM:**

- Finalize work with Transit Operators Working Group (TOWG) to review current schedules and routes, and identify opportunities to move toward an intuitive schedule system with optimized coordination of transfers, **FY 2010/11 – January 2012** Work with jurisdictions and transit operators to develop transfer agreements or other documents **As needed**

INTELLIGENT TRANSPORTATION SYSTEMS (ITS)**

**PURPOSE:** To facilitate implementation of ITS technology in Placer, El Dorado, Nevada, and Sierra County areas.

**BACKGROUND:** Caltrans received federal grants to explore the application of ITS technology statewide. Working with Caltrans District 3, this effort examined the application of ITS technology in the four rural counties. PCTPA acted as grant administrator for the multi-county effort to develop an ITS Plan for Placer, El Dorado, Nevada, and Sierra Counties. This effort was coordinated with the ITS effort begun by the Tahoe Regional Planning Agency (TRPA) for the Tahoe basin. The ITS Study was completed in FY 2001/02. The FHWA acknowledged the Tahoe Gateway Counties Intelligent Transportation System Strategic Deployment Plan (ITS/SDP) in June 2004 and the ITS Maintenance Plan in April 2005.

At the request of staff, SACOG will maintain the ongoing ITS Tahoe Gateway regional architecture. PCTPA will provide ongoing coordination and information sharing on ITS technologies among the four counties, and act as liaison with SACOG.

**WORK PROGRAM:**

**WORK ELEMENT 80  
FREEWAY SERVICE PATROL (FSP)**

**PURPOSE:** To facilitate implementation of a Freeway Service Patrol (FSP) on I-80 and SR 65 in South Placer County.

**BACKGROUND:** The purpose of the program is to keep traffic moving by removing traffic impediments, such as cars with mechanical problems or that have been involved in accidents, as well as assisting the motoring public. The program provides a tow truck with a qualified technician patrolling the target area. In 2003, PCTPA requested and received grant funding from the Placer County Air Pollution Control District (APCD)'s AB 2766 funds to implement a Freeway Service Patrol in the congested areas of I-80 in the South Placer County area. In 2005 PCTPA became eligible to receive funding under the State's FSP program. Since then, the program has been expanded with increased service hours and now covers I-80 from Roseville to Auburn and SR 65 from I-80 to Twelve Bridges Drive.

Juxtaposed with this need is funding availability. FSP is subject to annual State budget allocations and formulas, as well as annual AB2766 grants, and the available funding varies. Staff works closely with the CHP and the contractor to tweak the program, including service hours, days, and costs, to balance with available funding.

**WORK PROGRAM:**

- Coordinating with California Highway Patrol, administer and monitor FSP program **Ongoing**
- Publicize FSP program and benefits **Ongoing**

SOUTH PLACER REGIONAL TRANSPORTATION AUTHORITY (SPRTA)  
ADMINISTRATION**

**PURPOSE:** To provide staffing and administrative support for the South Placer Regional Transportation Authority.

**BACKGROUND:** PCTPA adopted a Regional Transportation Funding Strategy in August 2000 which included the development of a regional transportation impact fee program. PCTPA staff worked with the jurisdictions of South Placer County, as well as the development community, environmentalists, and community groups to develop a program and mechanism to implement this impact fee. The SPRTA, formed in January 2002, is the result of those efforts.

Under the Joint Powers Agreement that formed SPRTA, PCTPA is designated as the entity to provide administrative, accounting, and staffing support for the Authority. PCTPA is to be reimbursed for those staffing costs, as well as repaid for previous expenditures used to form the JPA and develop the fee program.

**WORK PROGRAM:**

- Provide administrative, accounting, and staff support for the SPRTA **Ongoing**
- Oversee the implementation of the SPRTA’s traffic impact fee as delineated in the Implementation Program, providing updates as indicated **Ongoing**
