LOCATION
Rocklin Events Center
2650 Sunset Blvd. | Rocklin, CA

RSVP
Requested but not required —
please email info@pctpa.net or
call (530) 823-4030

Reduce Traffic Congestion.
Improve Highway Interchanges.
Fix Potholes. Resurface Streets.

After nearly two years of thoughtful study and extensive community outreach, the Placer County Transportation Planning Agency (PCTPA) has developed a comprehensive draft transportation plan for Placer County.

On November 16, PCTPA will hold a town hall meeting for Rocklin residents to review the draft plan and gather community feedback.

IMPROVING TRANSPORTATION IN PLACER COUNTY

Our freeways and roads are getting more congested — robbing residents of time with their families and making travel less safe.

Our aging streets and roads require more maintenance — but transportation funds can't keep up with needed repairs.

Placer County needs a comprehensive transportation plan to protect our quality of life and keep our economy growing.

This Plan will Reduce Traffic and Improve the Quality of Life for Rocklin Residents

- A** Reconfigure the I-80/Highway 65 interchange to dramatically improve traffic flow and safety
- B** Highway 65 Widening — Galleria Blvd. to Lincoln Blvd.
- C** Placer Parkway — linking Highway 65 to Highway 99 and the Sacramento Airport
- F** I-80/Rocklin Road Interchange improvement
- G** I-80/Horseshoe Bar Interchange improvement

Fix potholes and resurface streets

Improve congestion hot spots

Transit enhancements for seniors and people with disabilities

Reduce congestion around Sierra College with additional Bus Rapid Transit lines

- I** Capitol Corridor rail expansion

A Local Funding Source to Keep Placer County Moving

Even after using every penny of gas tax for roads, and requiring developers to pay maximum transportation impact fees, the Keep Placer Moving plan faces a funding gap of \$1.25 billion.

PCTPA is exploring a half cent transportation sales tax that would expire no later than 30 years from now. The tax would have to be placed on the ballot and require 2/3 voter approval. The draft plan contains state law requirements and the best practices from other counties that have adopted local transportation taxes such as strong taxpayer safeguards including an oversight committee with independent audits and an annual report to the taxpayers.

Your Opinion Matters
